Kendra is the CEO of Kendra Nicole™ & The Finance Femme®, and the creator of Scalable Firms™ and Peace & Profits™. She is a wife, mom, Texas resident, coach to accounting professionals, and social media influencer to an engaged audience of followers.

After graduating from Clemson University (Corporate Finance and Accounting), Kendra quickly moved up the corporate ladder while working for corporations such as GE. This work led her to pursue her love for small business strategy by founding The Finance Femme®, an accounting and fractional CFO firm comprised of a brilliant team of all-women finance, accounting, and operations professionals.

Kendra Nicole™ was launched after recognizing the financial leadership gap that small business owners experience. Seeing that major corporations were supported by CFOs when making critical decisions, while small business owners struggled with growth because they lacked good financial counsel.

Growing a business beyond six figures is challenging. Kendra Nicole™ exists to close the gap and bring high-level comprehensive CFO advisory services to successful small businesses looking to scale.

Kendra Nicole™ provides full business strategy and financial consulting services to small and mid-sized businesses.
